

Microdermabrasion

A non-surgical way to repair and restore your skin to its youthful appearance. To achieve best results, you must have 6-8 treatments,

10-14 days apart.

\$100 each/ 8 for \$500/ microdermabrasion with Light therapy \$95

Lightwave Therapy

Lightwave stimulates collagen and elastin production and tissue repair, which can reduce and even reverse the effects of aging and damage to skin and other bodily tissues. The process requires pure beneficial (UV Free) light, which is converted into cellular energy. This energy is used to optimize and revitalize the health of the damaged tissue **\$100 each / or \$50** when added to any skin service

Dermakinetics

Facial infusion therapy is a patented skin care delivery process. This system uses precise wavelengths and pulses of light to deliver active skin care ingredients into the upper layers of the skin to stimulate positive visual changes. This is accomplished without harming the skin and without chemically altering the molecules in the skin care formulas.

*For best results for either the lightwave or facial infusion therapy treatments, a series of 2-3 sessions per week for 8-10 weeks is strongly encouraged (times per treatment per week differs per treatment) **\$125 for individual treatment \$75 for consultation** (will be deducted from package)

Waxing services

Eye brow **\$20**

Upper Lip **\$15**

Chin **\$20**

Full Face **\$65**

Bikini **\$45**

Extended Bikini (thighs) **\$60**

Brazilian (front to back) **\$75**

Underarm **\$35**

Half Arm **\$50**

Full Arm **\$70**

Back **\$65**

Back, shoulders, neck **\$80**

Half Leg **\$65**

Full Leg **\$125**

Skin Solutions

by Danielle

Signature Facial

One hour of pure relaxation. This treatment includes cleansing, steaming, and exfoliation along with a head, neck, and shoulder massage. The service ends with a customized mask, moisturizer, and sun protection **\$70**

Mini Facial

Forty minutes focused on cleaning the pores. Warm steam, followed by extractions and a customized mask suited for each individual **\$55**

Enzyme Peel

Enzymes mixed with water designed to dissolve the top dead layer of skin allowing trapped pores to be cleaned out. This treatment must be done during a facial **\$35**

Pumpkin peel

This Polishing Pumpkin Micro Peel provides all the benefits of a light peel without any dryness or downtime. This antioxidant-rich micro peel is perfect for dull, congested, and oily skin. The power of pumpkin combined with glycolic acid, makes it ideal for reducing surface build-up decongesting clogged pores, and stimulating collagen production. This results in radiant, healthy cell growth, and reducing age spot. **\$35**

Spa Teen Facial

This treatment starts with a peel along with steam to help to break down hardened fatty follicular clogging and maintain hydration. It includes extractions and a customized mask to follow along with free education! **\$65**

Jet Plasma

What it is

Jet Plasmapien is a handheld plasma device that uses cooler atmospheric temperature so does not create surface trauma like traditional fibroblast plasma. This extremely powerful device penetrates 13,000 volts of plasma through the epidermis, into the dermal and subcutaneous layers of the skin stimulating high levels of collagen and remodeling the cellular structure from the inside out. When J plasma mixes with oxide-oxygen, ozone plasma is created which kills surface bacteria and is anti-inflammatory to aid in calming keratosis, eczema, and rosacea. Jet Plasma is used to tighten the skin, diminish hyperpigmentation, treat acne, scarring, and stretch marks, and aids in product absorption that otherwise couldn't penetrate as deep without needle injections. Plasma is in the form of a gas like J plasma but uses a cooler temperature gas and helium to shrink and tighten whereas fibroblast uses a higher temperature creating surface trauma.

Jet Plasma price List

Price per treatment...**\$300-\$600**

(single areas include face, neck, décolleté, arms, thighs, stomach, etc). Combined areas will be offered at a discounted rate.

Three sessions...**\$850-\$1000**

Five sessions...**\$1,400-\$1,800**

Eight sessions...**\$1,900-\$2,200**

Add Light therapy to Jet plasma since the channels in the skin are open for additional **\$50 (req. \$100)**

Fibroblast Plasma Skin Tightening

What it is

Fibroblast Plasma Skin Tightening is the only treatment to use plasma to eliminate excess skin. The plasma device creates a tiny plasma flash when met with the body's natural gas, Co2. This superficial point target's the skin and its immediate vicinity creating a controlled barrier. This produces the volume of the skin pulling the cells together and tightening the target area. A series of carbon deposits are strategically placed to attain the desired result for the reduction of excess skin.

How long does it last

When performing plasma pen skin tightening, the skin is actually removed so effect should last as long as invasive surgery which is typically 3-5 years.
